

## CBCS Stand kits

Cardinal's American-made CBCS Electronic self-checking, light capacity load cell stand kits are for floor mounted tank or hopper scales. Ideal for 3 or 4 legged tanks, in new or existing installations. Easy to install, low-profile design and rugged, environmentally-sealed, stainless steel load cells provide excellent performance and self-centering load buttons protect against offset side loads. Available in 3 or 4 cell systems in capacities ranging from 330 to 1,600 lbs.
